## PROFILE

---

I am a dedicated third-year B-Tech student majoring in Computer Science Engineering, set to graduate in 2025. With a robust academic background, I am eager to transition theory into practice by securing a challenging position in the field. Proficient in various programming languages and armed with a solid foundation in computer science concepts, I am actively seeking opportunities to apply my knowledge and contribute to innovative projects. As a fast learner and adaptable team player, I am committed to delivering high-quality results while continually enhancing my skills in a collaborative and dynamic work environment.
